PROFESSIONAL EXPERIENCE

Product Manager | Saturn | August 2025 - Present

- **AI-Powered Financial Advisory Suite:** Managing end-to-end product portfolio, including Letter Generation Workflow, Fact Find Meeting Notes, Meeting Assistant, and Compliance Suite capabilities that enable UK financial firms to integrate AI into daily operations.
- **Revenue-Generating Product Portfolio:** Delivered integrated AI workflow solutions contributing £120K+ in annual revenue through improved operational efficiency across 650+ client firms, with 2000+ monthly active users adopting multiple product features
- **Compliance-First AI Implementation:** Built FCA-compliant Letter Generation Workflow processing 1000+ monthly documents with 95% regulatory accuracy, enabling firms to automate client communications while maintaining strict financial services compliance standards
- **Meeting Intelligence Ecosystem:** Developed comprehensive meeting support tools, including automated note-taking, speaker identification, and fact-finding workflows, reducing advisor administrative time by 60% and improving client interaction quality
- **Cross-Functional Product Integration:** Coordinated engineering, compliance, and design teams to deliver a cohesive AI-enabled product suite that transforms traditional financial advisory processes, resulting in 35% improvement in user adoption and 30% increase in client firm productivity

Product Manager | American Express | January 2024 - July 2025

- **Enterprise Client Analysis:** Collected and synthesised feedback from global enterprise clients to inform product roadmap decisions, feature prioritisation, and user experience improvements, resulting in enhanced platform adoption and client satisfaction
- **Workflow Optimisation:** Identified and implemented process improvements resulting in 40% reduction in manual workflows through systematic analysis of user pain points, efficiency bottlenecks, and operational requirements across enterprise accounts
- **Stakeholder Management:** Coordinated requirements gathering, client communications, and product delivery across multiple enterprise accounts while ensuring alignment between technical capabilities and business needs

Site Reliability Engineer I, II & III | American Express | July 2019 - December 2023

- Architected comprehensive monitoring and alerting systems, reducing incident response time by 22% through predictive analytics and automated diagnostics across high-traffic financial platforms
- Maintained 99.9% uptime for critical payment processing systems serving millions of daily transactions with proactive monitoring and rapid incident resolution protocols
- Built scalable employee onboarding systems, improving user satisfaction by 30% through iterative development, automated testing, and systematic user feedback incorporation
- Designed and implemented RESTful APIs connecting HR systems with analytics platforms, handling 10K+ daily requests with sub-200ms response times and 99.8% reliability
- Partnered with product teams to integrate system health metrics into user-facing dashboards, contributing to improved platform reliability and user experience visibility

LEADERSHIP & AWARDS

- **Winner** - “Best Colleague Experience” | **VHack 2020**.
- **Mentor** to 2 winning teams | **Amex Makethon (2021 - 2024)**.
- Built **AR/VR PoC** | Showcased at **GHC ‘19**.

EDUCATION

University of Petroleum and Energy Studies
Jul’15 - May’19

- **B.Tech, Computer Science & Engineering**
- **Leadership Roles** - CSR Head and Branch Representative
